REVIEW OF 2019

Although the year 2020 will be a challenge due to the effects of the COVID-19 pandemic, the Dutch film industry did yield strong performances across all sectors in 2019.

Total theatrical admissions were up 6.4% from 35.7M to 38M compared to the previous year.

Total Dutch film & audio-visual market revenues increased with 13.5% from €688M to €781M. Video on Demand (VOD) numbers leaped 21.6% from €324M to €394M. (2018 was the first year when VOD turnover eclipsed the theatrical Box Office.).

In 2019 even more films were released into Dutch cinemas. At 492 (equating to approximately ten new films per week) this shows how competition in cinemas is fiercer than ever before.

For the fourth consecutive year Dutch film production levels have risen, reaching €201M in 2019 (including, for the first time, tv series).

Attendance at major Dutch film festivals was just under 1 million, and the number of Dutch films awarded at international festivals came in at a robust 200.

This serves to underline that the Dutch film industry is a vibrant one, quick to respond to audience needs and requirements, and able both to meet international standards and adapt to the rapidly changing power dynamic.

Dutch films keep finding ways to reach national and international audiences and the 2019 results are testimony to this.

MARKET SHARES IN ADMISSIONS DOMESTIC PRODUCTIONS

Market share for Dutch films relatively stable at 11.8% in 2019

Admissions to Dutch films increased in 2019, but due to an overall increase in total admissions, the market share for domestic films in the Netherlands remained relatively stable. For the first time since 2016, the market share for films from the USA decreased. Market shares for films from the EU and other countries are 12.6% and 4.5%, respectively. The United Kingdom, France and Denmark reported the largest market shares for national films, similarly to last year.

Source: Press release European Audiovisual Observatory (preliminary results). Admissions in percentages of total national market. In the case of Spain and the United Kingdom, the national market share is based on GBO.

All figures include minority co-productions except for Sweden. In the case of Denmark, minority co-productions are only included in the market shares of 2018 and 2019.

5.1 COUNTRY SHARES OF ADMISSIONS/GROSS BOX OFFICE 2015-2019

24.4% market share for European films in Dutch cinemas, of which 11.8% for domestic productions

Market shares for European films as well as Dutch films remained relatively stable. Admissions to and the box office of Dutch films, however, were the highest since 2015. Compared to the 66 Dutch releases in 2018 the year showed a significant increase to 75 titles. The box office of American films grew as well, even though their admissions share was the lowest since 2015.

277 theatres with 985 screens in the Netherlands

The total number of cinemas grew slightly in comparison to 2018. There are now just as many cinemas as there were in 2015 (277). The number of screens grew with 14. Due to theatre renovations (e.g. to introduce comfort seating), the number of seats shrank with 0.8% to 151,740.

5.6 MARKET SHARES EXHIBITORS

The major Dutch exhibitor chains have a combined market share of 71.8%

In contrast to last year, major exhibitor chains now have more screens than independents and arthouses: 501 compared to 484. Major exhibitor chains added 43 new screens (+9.4%) whereas the number of screens of independents and arthouses decreased by 29 (-5.7%). Independents and arthouses do outnumber the major exhibitor chains in terms of cinemas, however.

5.7 CINEMA ATTENDANCE MARKET SHARES PER AGE GROUP

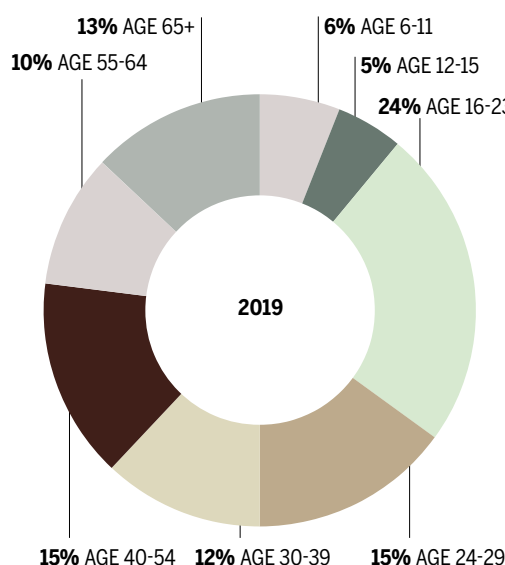

Young people are overrepresented in admissions, but 65+ is growing

Of all tickets sold in 2019, almost one fourth (24%) can be attributed to 16-to-23-year-olds even though they only represent 11% of the Dutch population. In ten years' time, the market share of those 65 years and older almost doubled, from 8% in 2009 to 14% in 2019. This growth comes mostly at the expense of the market share of those aged between 40 and 54 (-6%). Aging of the cinema audience is partially due to an aging Dutch population.

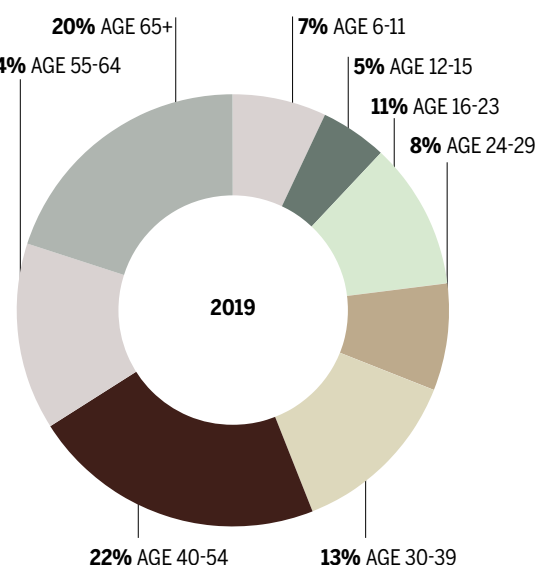

In total, 10.2 million people visited the cinema in 2019. Around one fifth of them (19% of the population, 3.0 million) visited a Dutch film in the cinema. Dutch films are most popular among 40-to-54-year-olds.

6.2 THEATRICAL BOX OFFICE, DVD/BLU-RAY & DIGITAL TURNOVER

Theatrical box office increased to €348 million. DVD/Blu-ray turnover further dropped to €39 million

Total box office revenues increased for the twelfth year in a row. DVD and Blu-ray sales, on the other hand, continued to drop in 2019. Physical retail generated €39 million, a 61% decrease in comparison to 2015. Unfortunately, no hard numbers are available for the total value of VOD in 2019. The Fund is therefore estimating the total market size. Similarly to previous years, the estimated total value of VOD has grown substantially in 2019, outweighing the total grossed theatrical revenues for the second year in a row.

6.3 ONLINE PLATFORMS AND SERVICES

Dutch audiences could watch films at home on a variety of services. In total, 40 major TVOD and SVOD (including catch-by) platforms were available to the public.

One TVOD service (Picl) cooperates directly with exhibitors and distributors and offers users the opportunity to watch movies at home while they are still playing in cinemas. Users pay the price of a regular ticket and can choose to “donate” their admission price to one of the associated theatres. In comparison to 2018, the amount of views more than doubled in 2019.
