THE YEAR 2024 IN NUMBERS

REVIEW OF 2024

The figures for the Dutch film and audiovisual industry for 2024 continue to show strong growth. More films than ever before were released in Dutch cinemas and despite fierce foreign competition, the market share of Dutch films increased. The total production volume of films and series has increased again. Total sector turnover continues to rise, thanks to the prolonged substantial growth of Video On Demand.

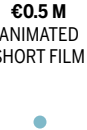

While total cinema attendance fell by 7% from 31.3 million to 29.1 million visitors, Dutch films attracted 19% more visitors. A total of 523 films were released in Dutch cinemas, including 88 new Dutch films and two re-releases. Thirteen more Dutch films were released than in the previous year, which contributed to the increase in attendance at Dutch films. Of these 88 Dutch productions, 36 feature films and 19 documentaries were made with support from the Film Fund. Of these, the Fund supported a total of 23 feature films and 13 documentaries through selective schemes and 32 feature films and 15 documentaries through the Film Production Incentive scheme.

The Dutch production volume (the total production budgets of films and high-end series) rose from €229.5 million to almost €260 million, an increase of 13%. Total cinema revenue fell by 7% from €333.3 million to €308.7 million. Total film and audiovisual revenue (cinema, streaming and DVD/Blu-Ray) rose by 15% from €1,490.7 million to €1,709 million. Video On Demand revenue grew from €1,139.4 million to €1,386 million, realising a further 22% increase compared to the previous year.

47.1% of granted projects produced by a woman

47.1% of Film Fund granted projects in 2024 were produced by a woman. Female directors represented 42.4% and of all granted projects 46.8% were written by a woman. These shares represent the highest shares of woman receiving grants, especially for producers, and get close to reaching a 50% male/female balance. In 2024, however only 4% of the directors of the top 20 performing Dutch films were women. This is a substantial decrease from the previous years.

2024 dominated by sequels and prequels

In 2024, Dutch cinemas continued to attract audiences, with animated sequels and blockbusters like *Inside Out 2* and *Despicable Me 4* leading the box office. The top 20 films accounted for 39.3% of total admissions and 42.2% of gross box office revenue, reflecting a slight decline from 2023’s figures. While no titles matched the record-breaking success of *Barbie* or *Oppenheimer*, major hits such as *Deadpool & Wolverine* and *Dune: Part Two* demonstrated solid performances. Family-oriented films like *Moana 2* and *Mufasa: The Lion King* further cemented animation’s dominance. Only two Dutch movies reached the top 20, compared to one last year.

6. THEATRICAL AND HOME ENTERTAINMENT

6.1 THEATRICAL BOX OFFICE AND HOME ENTERTAINMENT TURNOVER

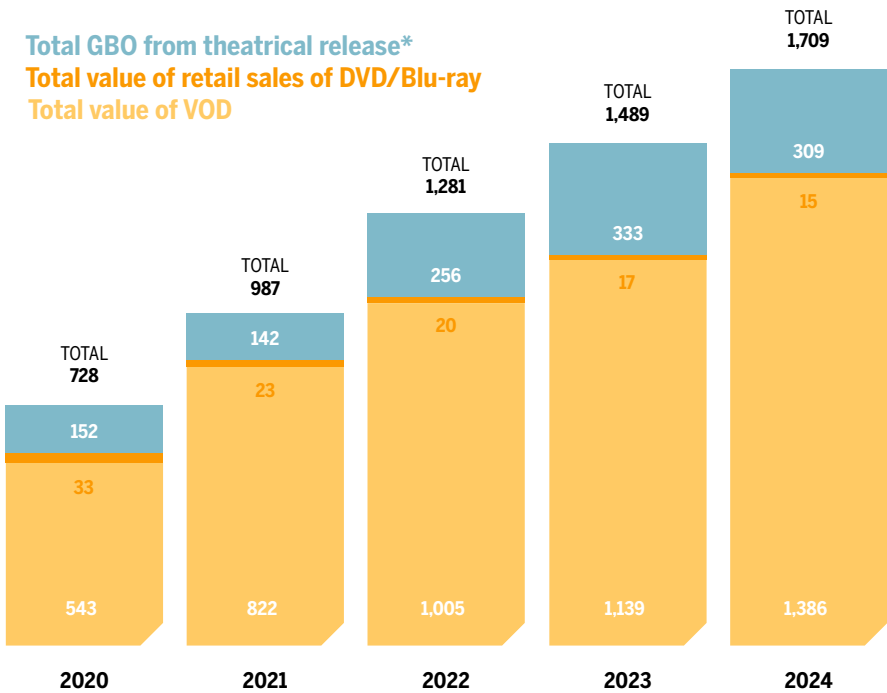

Continued Growth of VOD

SVOD and TVOD together generated a record €1,386 million in 2024, marking a 22% increase compared to 2023. The SVOD market accounted for the bulk share, totaling €1,347 million. The gross box office experienced a decrease of 7% between 2023 and 2024. DVD and Blu-ray sales continued their downward trend, with physical retail generating €14.5 million, a 19% decrease compared to 2023.

Source: NVPI film/GfK

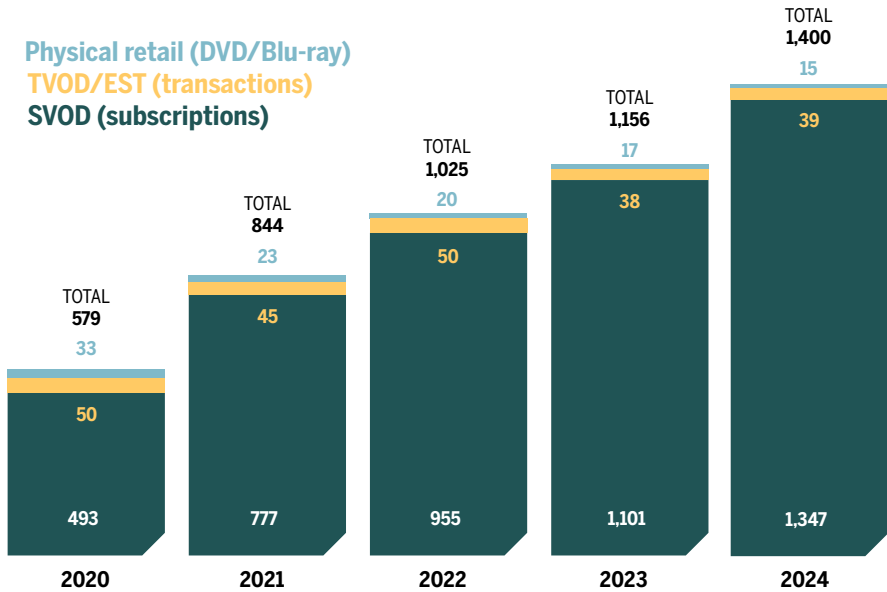

Important: until 2020 the value of SVOD was based on a rough estimate. From 2021 onward this is based on market research by which a more accurate figure can be calculated. SVOD value is solely based on subscriptions. No distinction is made in the viewing behaviour of films/ documentaries and other content like reality TV, sports and series. That means the given value is a overestimation of SVOD in terms of film market.

Small decline in number of VOD platforms available in The Netherlands

Currently, a total of 49 TVOD and SVOD platforms (including catch-up services) are accessible to the public. This is the same number as in 2023. While specific subscriber numbers are not publicly disclosed, our own analysis indicates that the overall trend suggests a continued slowdown in the growth of total subscribers to these VOD services.
